

DIRECTIVE 98/4/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 February 1998 amending Directive 93/38/EEC coordinating the procurement procedures of entities operating in the water, energy, transport and telecommunications sectors

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community and in particular Articles 57(2), 66 and 100a thereof,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the Economic and Social Committee (2),

Acting in accordance with the procedure laid down in Article 189b of the Treaty (3), in the light of the joint text approved by the Conciliation Committee on 26 November 1997,

(1) Whereas the Council, by its Decision 94/800/EC of 22 December 1994 concerning the conclusion on behalf of the European Community, as regards matters within its competence, of the agreements reached in the Uruguay Round multilateral negotiations (1986-1994) (4), approved on behalf of the Community, inter alia, the Agreement on Government Procurement, hereinafter referred to as 'the Agreement', the purpose of which is to establish a multilateral framework of balanced rights and obligations with respect to government procurement with a view to achieving liberalisation and expansion of world trade; whereas the Agreement has no direct effect;

(2) Whereas Directive 93/38/EEC (5) coordinated the national procedures relating to the procurement procedures of entities operating in the water, energy, transport and telecommunications sectors, in order to introduce equal conditions of competition for such contracts in all the Member States;

(3) Whereas the contracting entities covered by the Agreement which comply with Directive 93/38/EEC, as amended by this Directive, and which apply the same provisions as regards contractors, suppliers and providers of services of third countries signatory to the Agreement are therefore in conformity with the Agreement;

(4) Whereas, in view of the international rights and commitments devolving on the Community as a result of the acceptance of the Agreement, the arrangements to be applied to tenderers and products from signatory third countries are those defined by the Agreement, the scope of which does not include contracts awarded by contracting entities referred to in Article 2(1)(b) of Directive 93/38/EEC, contracts awarded by contracting entities carrying out activities referred to in Annexes III, IV, V, VI and X of that Directive, service contracts listed in Annex XVI B thereto, R& D service contracts mentioned in Category 8 of Annex XVI A thereto, telecommunications service contracts mentioned in Category 5 of Annex XVI A thereto, whose Common Products Classification (CPC) numbers are 7524, 7525 and 7526 and financial service contracts mentioned in Category 6 of Annex XVI A thereto, in connection with the issue, sale, purchase or transfer of securities or other financial instruments, and central bank services;

(5) Whereas certain provisions of the Agreement introduce more favourable conditions for tenderers than those laid down in Directive 93/38/EEC;

(6) Whereas, when contracts are awarded by contracting entities within the meaning of the Agreement, the opportunities for access to public service, public supply and public works contracts available under the Treaty to undertakings and products from the Member States must be at least as favourable as the conditions of access to public contracts within the Community accorded under the arrangements contained in the Agreement to undertakings and products from third countries which are signatories to the Agreement;

(7) Whereas it is therefore necessary to adapt and supplement the provisions of Directive 93/38/EEC;

(8) Whereas the need to ensure a real opening-up of the market and a fair balance in the application of procurement rules in these sectors continues to require that the entities to be covered must be identified on a basis other than by reference to their legal status;

(9) Whereas the amendments made to Directive 93/38/EEC should not prejudice the equal treatment of contracting entities operating in the public sector and in the private sector;

(10) Whereas it must be ensured, in keeping with Article 222 of the Treaty, that the rules in Member States governing the system of property ownership are not to be prejudiced;

(11) Whereas the application of Directive 93/38/EEC must be simplified and the balance which has been reached in the current Community legislation in the field of public procurement in these sectors must be maintained as far as possible;

(12) Whereas it is therefore necessary to extend the applicability of certain of the adaptations of Directive 93/38/EEC to all the contracting entities and sectors covered by this Directive;

(13) Whereas contracting entities may seek or accept advice which may be used in the preparation of specifications for a specific procurement, provided that such advice does not have the effect of precluding competition;

(14) Whereas the Commission shall make available to small and medium-sized undertakings the training and information materials they need to enable them to participate fully in the changed procurement market;

(15) Whereas the opening-up of contracts in the sectors covered by this Directive might have adverse effects upon the economies of the Hellenic Republic and the Portuguese Republic, which will have to endure considerable strain; whereas it is appropriate that these member States be granted adequate additional periods to implement this Directive,

HAVE ADOPTED THIS DIRECTIVE:

#### Commission declaration

The Commission declares that, while continuing to ensure that the principle of equal treatment of public and private entities is observed, it will limit its request for statistics pursuant to Article 42(2) to the strict minimum necessary to meet the international obligations ensuing from the GPA in order to reduce the burdens incumbent on contracting entities.

During the ongoing review of the GPA, the Commission also intends to seek a simplification of the statistical requirements at international level. If successful, the Commission will take the necessary steps to ensure that this is taken into account in the internal statistical requirements.
